Professional Experience

Production Tech GotPrint

Present | Burbank, CA

- Manage daily large-format print production, collecting and batching print jobs while coordinating with warehouse staff to ensure materials and resources were available for scheduled runs.
- Prepared print files with proper bleed and specifications for large-format banners, partnering with print operators to troubleshoot production issues and maintain output quality.
- Operated efficiently in a high-traffic warehouse environment, balancing multiple priorities and cross-team communication to keep print production on schedule.

Contract Graphic Designer Pan Am Museum Foundation

Present | Remote

- Using indesign to design print spreads for the Pan Am Museum Foundation's upcoming gala, ensuring all deliverables adhered to brand guidelines while balancing creative vision with production feasibility.
- Applied strong typography and layout skills using Adobe Creative Cloud (Illustrator, InDesign, Photoshop) to produce polished, brand-aligned materials for a high-profile institutional event.
- Conducted research and collaborated with supervisor and director to ensure design concepts accurately reflected the creative vision and goals of the gala.

Junior Graphic Designer Center of Science and the Imagination

September 2023 - May 2025 | Tempe, AZ

- Coordinated directly with clients under the guidance of a supervisor to gather project requirements and ensure deliverables met their creative vision.
 - Managed project deadlines and timelines across multiple concurrent design projects, keeping work on schedule from concept to completion.
 - Developed proficiency in Adobe Creative Cloud (Photoshop, InDesign, Illustrator), applying these tools to design spreads, pitch decks, and vector graphics.
- Produced a range of design deliverable, including layout spreads, client-facing pitch decks, and custom vector illustrations under mentorship from senior design staff.

Volunteer Experience

- Pit Crew Volunteer: Petersen Automotive Museum
